It’s easier than ever to install and maintain the ONE Cartridge Tank® Filtration System with the all new E1-Connect. It features an Integrated Bypass, as well as a Meter & Drain Connection System.

Say goodbye to small and inefficient housings. Get rid of expensive stainless steel housings. The ENPRESS Cartridge Tank® is a direct replacement for small and inefficient 2½” or 4½” housings, or expensive Stainless Steel cartridge housings, and offers extended service and life, and a more cost-effective and efficient filtration solution.

Utilizing ENPRESS’ patented industry exclusive liner design and no tools necessary snap-ring design; Full radial seal top and bottom caps make replacement simple. Cartridge Tank® makes it easy to access and remove the internal filtration solution.

Lightweight and cost effective with multiple configuration options, from high flow commercial/industrial applications to stand-alone residential Point-of-Entry (POE) installations for city and well water applications, this is the filtration solution of the future...100% non-metallic! The Cartridge Tank® is a high performance, NSF 44 listed device and has been tested to 150 psi operating pressure with 4:1 Burst Safety Factor.

**Features**
- 100% non-metallic!
- Patented no-tools necessary snap-ring design
- Multiple filtration solutions
- Full 1” MNPT plumbing connection with bypass and 3/8” PEX John Guest® Drain
- Large capacity filter configurations

**Benefits**
- Lightweight and cost effective housing with high chemical compatibility
- Simple and easy change-out of cartridges. No Tools, Means NO TOOLS!
- Match the filtration solution with flow rate requirements
- Extended service life, contaminant removal, and dirt holding capacity
- Low pressure drop = high flow

**Applications**
- Ideal for Residential, Food Service, Rental Fleets, Commercial and Industrial Applications
- Make-up Water, RO Pre-filtration, Cooling Towers, Chill Water Loops, Metal Finishing
- Process Water (turbidity, particulate, colloidal suspensions)
- Reduction of unwanted bad taste and odor from potable drinking water
- City water applications where water softeners are a hard sell...as a replacement option of pitcher, faucet, bottled water and/or refrigerator filters
- Reduction in frequency of replacing common 2½” or 4½” housings...Bigger is Better
- Other water-based fluid solutions
**NEW E1 Integrated Bypass, Meter & Drain Connection System for Cartridge Tank®**

This new E1 connection system is an alternative to the 1¼" female glue socket connection that has been offered as the connection solution to the Cartridge Tank® for years, and will be available to be used with all POE (Point-of-Entry) filters in the BLUE, GREEN, YELLOW, ORANGE and WHITE filtration series.

### Part Identification
1. Filter housing
2. Bottom Inlet/Outlet cap assembly
3. Bypass manifold
4. Straight or 90-degree Angled In/Out 1” MNPT plumbing connectors
5. 3/8” PEX Drain valve assembly with shut-off

### Simple Assembly Instructions
- Connect #3 to #2 on the bottom of the Filter Housing #1
  - HAND TIGHTEN ONLY
- Use either of part #4 for connecting your plumbing to the system
  - HAND TIGHTEN ONLY
- Install part #5 into #3 using the threaded connection and Teflon tape
  - HAND TIGHTEN ONLY
- Connect 3/8” PEX plumbing to drain
  - NOT PROVIDED

US and International patents, and patent pending.
